VOLUNTARY

>Elderly Support Initiatives:Collaborate with local community leaders and youth volunteers to provide assistance to elderly residents in the camp.
>PROFUTURO COACH:Lead digital literacy training programs for youth and adults in the camp, introducing them to basic computer skills, internet usage, and essential software tools.
>Youth Representative:
Act as youth representative of the community in Nduta Camp, serving as a liaison between the youth and camp authorities.

BUKIRA SOPHONIE

About me:

I am a dedicated and self-taught web developer specializing in the Django framework. With a strong passion for technology, community service, and leadership, I have been able to integrate my technical expertise with hands-on involvement in humanitarian work. My experience includes working with international NGOs, where I have demonstrated leadership, responsibility, and a commitment to improving the lives of those in refugee camps. I am eager to further develop my skills and continue making a positive impact through my technical and community-driven initiatives.
